

Press Release

April 14, 2009

What is Pik Pak Pro ?

Pik Pak Logistics Australia's leading on demand storage and fulfilment provider has added Professional Service to the suite of supply chain service.

Pik Pak Professional Services (Pik Pak Pro) provides business solutions for complex logistics and supply chain challenges. Many companies will rarely have the skills or specialised tools available within their companies' pool of resources to take on these types of challenges. However, finding solutions to complex logistics and supply chain challenges is our core business.

Organisations don't need to have an ongoing commitment to a fixed cost labour overhead, specialised skills or software. Instead they can use Pik Pak Professional Services for short term and specialised requirements to get results quickly.

Who uses Pik Pak Professional Service ?

The solutions that Pik Pak Professional Services provide are often driven by our clients and their requirements. The majority of our clients include executive recruitment firms, third party logistics (3PL) operators and large multinationals with supply chain operations.

Pik Pak provides contract labour for short term, project or contingent requirements. These will often include logistics analysts, project managers or technical specialists. Engagement is typically at senior levels with various stakeholders and a broader business focus.

Pik Pak also supports new business tendering, key account management or renewal of existing contracts. A Pik Pak professional will liaise with Business Development, Key Account Managers and Senior Business Managers to deliver tangible outcomes under a definite timeline.

If you would like to know more about Pik Pak Professional Services contact us today or visit our website anytime.
